EDUCATION

B.Tech, Computer Science & Engineering Gokaraju Rangaraju Institute Of Engineering And Technology CGPA: 9.07/10	2023 - 2027
Senior Secondary (XII), TSBIE SRI CHAITANYA JUNIOR COLLEGE Percentage: 98.00%	2022

PROJECTS

[Project Partner Finder \(Vivitsu Hackathon\) ↗](#)

Apr 2025 - Oct 2025
Built a Python-based web application that processes user data to match collaborators based on skills and experience, involving data handling, filtering logic, and result visualization for real-world usage.

[Email OTP Autofill System ↗](#)

Aug 2025
Developed a JavaScript-based browser extension integrating Gmail APIs to auto-fill OTPs in web forms, focusing on data extraction, pattern matching, debugging, and performance optimization, reducing manual input time by 70%.

[AI Systems & Multi-Agent Platforms ↗](#)

Dec 2025 - Present
Built end-to-end AI systems covering retrieval, evaluation, governance, routing, agent orchestration, and model lifecycle management. Projects include Incremental Knowledge Base & Semantic Retrieval Engine, YouTube RAG Q&A System, RAG Quality Benchmarking Engine (Recall@K, MRR), Enterprise LLM Governance Platform, Enterprise GenAI Router & Policy Engine, Multi-Agent Incident Response Simulator (LangGraph), and End-to-End Model Lifecycle Manager (LoRA/PEFT, Hugging Face Hub), demonstrating real-world AI platform engineering and full-stack integration.

SKILLS

- Generative AI Development

EXTRA CURRICULAR ACTIVITIES

- Certified yoga student practicing mindfulness and discipline, improving focus, consistency, mental resilience, and overall well-being alongside technical studies.

ADDITIONAL DETAILS

- Secured 3rd Place (2nd Runner-Up) at VNR Design-a-thon among 539+ teams for building an AI-based system using Computer Vision and NLP.
- Built and deployed multiple real-world AI and web applications, including full-stack platforms and automation tools with live demos and GitHub repositories.
- Participated in Google Developers Agentathon, a global hackathon recognized as a Guinness World Record event, collaborating on AI-driven problem-solving.
